Dear Mr. Naeem,

Very exciting information. I hope there is a center like this in every mohalla of Karachi. No one from amongst our rulers has done anything for the common man as they have all been busy in adding to their personal empires and relishing their powers over the people. I always admire all those from amongst our civil society who are selflessly doing social work for bettering the condition of the poor and vulnerable section of our country. I will definitely come some day to visit your center in Qayyomabad.

Sincerely
Nasir Zahid

Mr. Shuja Zaidi, General Manager, Makkah Hilton Tower, Saudi Arabia being presented, a shield of honor by Chairman CHAEF, while on a visit to Makkah, in appreciation and recognition of his efforts, support, dedication and commitment towards humanity and social services. Mr. Mohammad Tariq Deen, Head of Operations, Mr. Ibrahim Al-Fati, Executive Assistant Manager/Director of Operations, were also present. Mr. Shuja Zaidi has also sponsored a Primary Healathcae Center at Shahrah-e-Faisal, Karachi.

Mr. Shuja Zaidi, General Manager Makkah Hilton Towers, hosted a lunch for Syed Naeem-ul-Hassan Chairman CHAEF and other guests for fund raising. The guests agreed to sponsor and support the noble services rendered by Children Health and Education Foundation.

Please become our partner for FREE Noble Services to poor and destitute patients by sponsoring any of the following packages

It is for your kind information that we have observed that a large number of poor and needy patients live in slum areas of cities and villages in extremely unhealthy conditions and have neither money nor access to any medical facility. These people suffer from minor ailments and availability of primary healthcare facility will save their lives.

We request you to kindly help us by sponsoring the following sponsorship plans. With your help the patients will be provided free consultation and initial diagnosis and then refer to specialized hospital so that diseases like Cancer, Kidney, Heart, Eye, Thalassemia, Hepatitis B & C, Gynecology and obstetrics related diseases which convert into terminal be treated at the initial stage to save their lives. Whereas diseases like infection, fever T.B, Malaria, Typhoid, Diarrhoea, High Blood Pressure, Diabetes and Women related diseases i.e. Chronic Pelvic Pain, Pelvic inflammatory diseases, Gynecology in the elderly. Menstruation Disorder, Polycystic Ovary syndrome, Investigation of infertility couple. Premenstrual symptoms and Menopause will also be treated and medicated FREE of charge at our Mother & Child healthcare centers with FREE ultrasound facility at all our primary healthcare centers.

Poor Girl Marvi, suffering from Cough, Fever and Chest congestion waiting for your support

Thousands of women die every year Diagnose and Treat Terminal Diseases before it is too late

The objective of CHAEF is to provide primary healthcare facilities to poor and needy at their doorstep totally free of cost and to refer patients having symptoms of deadly diseases - Diabetes, High Blood Pressure, Heart Attack, Kidney and Eye related diseases to the specialized Hospitals for timely treatment.

CHAEF is presently running 59 health and education facilities all over Karachi including two primary healthcare centers at Lahore and one at Faisalabad. A total of 1.38 million patients have been treated to date including over 43,000 women who benefited from our Mother and Child Health support including ultrasound facilities. Normal question in the mind of every one is - why CHAEF an organization that advocates for Children monitor women related diseases? It is because women are primary caregivers of children. Women's well being contributes to the well being of their offsprings. Healthy and empowered women are most likely to have healthy, educated and confident children.

We are committed to help the women by setting up the 'Mother & Child Healthcare' centers as it seems that every women patient having a disease is related either to Gynecology, obstetrics, family planning or hormone imbalance. These services contribute to reduction in mortality. We wish to set up Mother & Child Healthcare facilities to achieve the following objectives:

- Reduce causes of Child deaths.
- Prevent Mother & Child against tetanus and nutritional deficiencies.
- Reduce maternal deaths.
- Provide pre pregnancy and post delivery care to mother and child.
- Provide vitamin supplement to anemic patients.
- Educate and counsel on family planning and Child spacing.

Request to help us set up laboratory to perform Bd cp.E.S.R, Hb, Bd gp, HbsAg, Anti HCV, Fbs, Rbs, S.G.P.T, Urine dr for diagnosis of terminal diseases at initial stage for poor and destitute totally FREE of charge

We are pleased to inform you that we have started free laboratory services at all our primary healthcare centers. The blood samples are collected from our Primary Healthcare Centers on weekly basis. This will facilitate the poor and non affording patients to have free tests and help doctors to properly diagnose diseases and treat the patients at very initial stage before their conversion to incurable illness.
